Aukey light instructions. Aukey touch lamp not working.

Insert a Micro SD Card into the Micro SD card slot and format it using the 'Format' option in Dash Camera 'Setup.' After powering on each time, the system will start recording automatically. To power off, disconnect the Mini USB cable.Video RecordingLoop Recording: Recording will begin automatically after powering on with a Micro SD Card in the device. Each recorded file is up to ten minutes long, with old footage being replaced when Micro SD Card storage is full.Motion Detection Recording: Switch on motion detection in 'Setup.' This function will start recording video when the dash camera detects motion in front and stop recording when motion is no longer detected.Time-Lapse Recording: Switch on time-lapse recording in 'Setup.' This function will capture a picture per second to make a video played at 30fps.USB File TransferConnect the Dash Cam (with card inside) to your computer using your own USB mini-B data cable (the included cable is for power only). It should be recognized as a removable device (with a USB connector image displayed on-screen).Find the video recording files located in the \AUKEY\MOVIE folder (or\AUKEY\PHOTO for snapshots).Copy the files to your computer.Micro SD Card File TransferShut down the device (by disconnecting the power cable) and eject the Micro SD Card.Insert the Micro SD Card into a computer Micro SD card slot or reader and your computer will automatically detect the Micro SD Card.Find the video recording files located in the \AUKEY\MOVIE folder (or \AUKEY\PHOTO for snapshots).Copy the files to your computer.Product CareEnsure camera and mount are firmly fixed in-place before use to avoid fallsKeep away from liquids, extreme heat, and strong magnetic fields Ensure the operating temperature is within the range: -30°C - 75°C (-22°F - 167°F)Avoid touching the lens surface.
